PROJECTS

Expense Splitter - Expense Management   Mar 2025 – May 2025

- Tech Stack: HTML, CSS, JavaScript, Spring Boot, MySQL.
- A simple web application to manage and split shared expenses among group members.
- Users log in, create a group by adding member names, and record expenses. The app automatically splits the total amount equally and shows how much each member owes. Payments can be marked, and queries can be submitted within the group. Useful for roommates, friends on trips, family budgeting, or any small group needing to track and settle shared expenses efficiently.

WriteWise – Text Editing Tool   Apr 2025 – May 2025

- Tech Stack: HTML, CSS, JavaScript, Spell Check API
- Developed a lightweight, browser-based text editor that allows users to write and edit text with live word count tracking, custom word limit setting, and automatic warnings when the limit is exceeded.
